
KIVILCIM YÜKSEL ALDOGAN

Personal Information

Female, Married with one child

Citizenship: TR, BE

Fluent in English and French

YOKDIL score: **79/80** (English), KPDS score: **77/80** (French)

DELFB2: **84/100** (FR proficiency, upper intermediate)

Address: Izmir Institute of Technology (IzTECH), Electronics Eng. Dept.,
Gulbahce Kampusu, 35430, Izmir TR

Telephone: +90-232-750.65.40

Professional activities

Dr. Yüksel is in the process of establishing an **Optical Fiber Metrology and Sensors Laboratory** as a complementary part of the ongoing research at the Electrical and Electronics Engineering Department on the photonics domain.

She has been academic board member of Photonics Department at IzTECH since 2016, and research associate at University of Mons, Belgium since 2013.

Research topics lie in three main areas:

1. Optical fibre metrology, distributed and quasi-distributed optical fibre sensors, fiber-based optical reflectometry.
2. Development of innovative concepts for low cost intelligent traffic management and transportation systems based on sensor and telecommunication technologies.
3. Optical access networks, Passive Optical Networks (PONs), physical layer monitoring of PONs, Fiber to the home (FTTH) technologies.

Employment

- March 2012-present, assistant professor, Izmir Institute of Technology (IzTECH), Izmir.
- June 2011-March 2012, research engineer, Université de Mons (UMONS).
- 2005-2011, teaching and research assistant, Université de Mons (FPMs, UMONS).

-
- 2002-2005, research engineer, MULTITEL, Applied Photonics Department, Mons, Belgium.
(<http://www.multitel.be/>)
 - 2000-2001, optical research engineer, NETAS, Istanbul, Türkiye.
 - 1996-2000, teaching assistant, Electronics Engineering Department, Ege University, Izmir, Türkiye.

Education

- **Ph.D.** November 2006 - June 2011, fiber optics, Université de Mons (BE)
thesis subject:
Development of an optical frequency-domain reflectometer and applications to the interrogation of fiber Bragg gratings
supervisors: Prof.Dr. Marc Wuilpart and Prof.Dr. Patrice Mégret
- **DEA** (Diplome d'études approfondies), Fiber optics, Faculté Polytechnique de Mons (BE), October, 2006.
DEA Thesis: Sensor Applications of Brillouin Effect,
supervisor: Prof.Dr. Patrice Mégret, GPA: 18/20.
- **M.S.** Electronics, Ege University, Izmir (TR), February, 2000.
Master Thesis: Performance Analysis of Optically Pre-Amplified Receivers In Digital Optical Communication Systems,
supervisor: Prof.Dr. Gökalp Kahraman, GPA: 83/100.
- **Academic English Preparatory Class** Foreign Languages Department, Ege University, 1996.
- **B.S.** Electronics, Dokuz Eylül University, 1995.
Graduation Project: Computer Aided Simulation of Remote Control Signals,

Projects as principal investigator

- *Development of a Phase-OTDR interrogator*,
TUBITAK-2219 International Research Fellowship Programme,
BIDEB-2219-1059B191600612, (2017)
- *Development of a simulation tool for vibration sensors based on Phase-OTDR interrogator*,
Scientific Research Project (2019-IYTE-0316), April 2019-ongoing
- *Development of an intrusion sensor based on Phase-OTDR*,
Scientific Research Project (2017-IYTE-77), December 2017-January 2018
- *Design of a novel optical sensor interrogation method using Fiber Cavity Ring-Down (FCRD) technology and Optical Time Domain Reflectometer*,
Scientific Research Project (2016-IYTE-50), December 2016-December 2017
- *Development of an energy-efficiency and cost optimisation tool for the physical-layer monitoring of optical access networks*,
Scientific Research Project (2013-IYTE-02), October 2013-September 2015
- *Development of a fiber-optic traffic sensor for intelligent transportation systems*, 1049.TGSD.2014,
Seed-stage funding program provided by Science, Industry and Technology Ministry of Turkey, (Amount of funding: 99.000 TL),
April 2014-August 2015
- *LOCOTRAC: Low Cost Train Automatic Control, Development of innovative concepts for low cost intelligent traffic management and transportation systems based on sensor and telecommunication technologies*,
(postdoctoral researcher), November 2011-March 2012, Belgium
*
- *Novel sensing method using optical frequency-domain reflectometer and fiber Bragg gratings for strain monitoring of composite materials*,
EU 7th Framework, Marie-Curie International Reintegration Grants,
Call ID: FP7-PEOPLE-2013-CIG, Proposal No: 618611,
Acronym: SENSOREF, February 2013.
Passed threshold with no funding. Total Score: 84.4/100

Teaching

- Graduate level courses: EE513 (Fiber Optic Sensors), EE511 (Optical Fiber Communication Systems), PHOT505 (Applied Photonics).
- Undergraduate electrical engineering courses: EE411 (Fundamentals of Photonics), EE412 (Optical Communications), EE221 (Concepts of Modern Physics), EE272 (Electronic Circuits).
- **Visiting Professor**, May 2013 and September 2018
ERASMUS Staff Mobility for Teaching Assignments Programme,
Electromagnetism and Telecommunication Department
University of Mons (FPMs), Mons, Belgium

Graduate projects supervised

- Samil SIRIN *Investigation of phase-sensitive time domain reflectometry for optical fibre sensing*, IYTE, September 2019-ongoing.
- Ertunga Burak KOCAL *Development of a Simulation Tool for FBG-based Phase-OTDR Vibration Sensors*, IYTE, September 2018-ongoing.
- Melike DEMIREL *Framework for evaluating security and maintenance issues in optical fiber access networks: case for Turkey*, IYTE, December 2018-ongoing.
- Hurriyet YUCE CAKIR *Potential Applications of Inorganic Optical Elements and Polymeric Systems*, IYTE, 2018-ongoing.
- Cansu IDE. *Analysis and implementation of long period fiber grating and Fresnel reflection-based sensors for refractive index measurement of liquids*, IYTE, July 2017.
- Anil YILMAZ. *Analysis and implementation of optical fiber sensors for process monitoring of composite materials*, IYTE, December 2016.
- Gizem SOYLU. *Exploiting second harmonic generation for microelectronics interface characterization*, IYTE, July 2016
- Deniz OZCAN PALA. *Analysis and modeling of a novel approach for the interrogation unit of fiber Bragg gratings sensors using optical frequency-domain reflectometry techniques*, IYTE, July 2014.

Graduate exam participated

- Ph.D. Defense Committees:
 - M. Cen, *Advanced monitoring systems for next generation passive optical networks*, UMONS, Belgium, July 2016, Adv: Marc Wuilpart.
 - D. Kinet, *Utilisation de capteurs réseaux de Bragg fibrés pour le suivi de matériaux composites pendant et apres la fabrication*, UMONS, Belgium, January 2014, Adv: Patrice Mégret, Christophe Caucheteur.
- M.S. Defense Committees:
 - S. Kangal, *Development of radar absorbing composite structures*, IYTE, Izmir, Türkiye, July 2013, Adv: Metin Tanoglu, Lutfi Ozyuzer.
 - M.D. Gunes, *Development of process techniques for composite based leaf spring systems*, IYTE, Izmir, Turkiye, December 2013, Adv: Metin Tanoglu, Oguz Egilmez.

Reviewer for the following journals:

IEEE Sensor Letters (since 2017),
IEEE Journal of Lightwave Tech. (since 2016),
Optics Express (since 2011), Optics Letters (since 2015),
Optics Communication (since 2014),
IEEE Photonics Technology Letters, IEEE Sensors Journal (since 2012),
Photonic Network Communications, IEEE Photonics Journal (since 2013).
Optical Switching and Networking (since 2013),
Optics and Lasers in Engineering (since 2013),
Turkish journal of electrical engineering and computer sciences (since 2013),

List of Publications

Books and inbooks

- *Optical Transmission : the FP7 BONE project experience*, 2011
Contribution to chapter 2 : Signal processing, management and monitoring in transmission networks, (C. Caucheteur, V. Moeyaert, [K. Yüksel](#))
Editors: A. Texeira, G.M. Tosi Beleffi, Springer, ISBN 978-94-007-1766-4.

Tutorial:

A half-day seminar entitled '*FTTH Technologies*' has been periodically given to industrial partners (e.g. Belgacom) twice a year, between 2005 and 2009.

Doctoral Schools Participated:

- Doctoral School IAP, Interuniversity Attraction Poles (IAP)-Phase VI (2007-2011) doctoral school, Photonics@be-micro, -nano and quantum photonics., March 2009, Oostduinkerke, Belgium.
- Summer School, BONE European Network of Excellence, October, 2008, Mons, Belgium.
- Doctoral School (Photonis Technology Lectures) held at three Universities: PhLAM, University of Lille (Lille, France), ULB (Brussels, Belgium), FPMs (Mons, Belgium), 2008.
- Doctoral School (Metamorphose), January 2008, University of Liege, Belgium.
- COST 291 Summer School, July 2007, ENST, Brest, France.
